ALFREDO GARZÓN ZAMORA

Senior Full Stack Developer

Upland, CA | (678) 701-8222 | alfredo.garzon@aztechnologies.tech
LinkedIn: linkedin.com/in/alfredogarzonzamora
Authorized to work in the United States | Open to Remote / Hybrid

PROFESSIONAL SUMMARY

Full stack developer with 15+ years building and migrating enterprise web applications using PHP, Python, Java, JavaScript, and MySQL. Experienced in legacy modernization (Flex to PHP, PHP to Python), SSO implementation, and responsive mobile-first design. Combines hands-on development with remote client delivery, production support, and measurable outcomes including 70%–130% user growth on a self-built SaaS platform.

CORE COMPETENCIES

- PHP, Python, Java
- HTML, CSS, JavaScript
- MySQL, SQL Server
- REST APIs
- jQuery, responsive design
- C# / C++
- Linux / Ubuntu
- SSO / authentication
- Legacy migration
- Apache Tomcat, JDK
- PowerShell automation
- Remote delivery
- Full stack development
- Google APIs
- Agile / Scrum
- Client requirements
- Web application design
- MicroStrategy (BI)
- Talend (ETL)
- Technical documentation

PROFESSIONAL EXPERIENCE

MicroStrategy Expert & Application Developer

Fintech (Remote) | Jan 2022 – Present

- Led migration of a legacy PHP application to Python, improving maintainability and positioning the stack for modern API integrations.
- Automated recurring data and admin workflows with PowerShell, cutting manual processing time on remote infrastructure.
- Provided Tier-2 client support for web and application environments, resolving configuration, access, and performance issues within SLAs.

MicroStrategy Expert & Application Developer

Aperity (Remote) | Jun 2018 – Jan 2022

- Migrated a legacy Adobe Flex application to PHP/HTML, achieving successful production cutover with no rollback.
- Implemented SSO and role-based project access (group membership rules), reducing unauthorized access incidents and simplifying user onboarding.
- Built and maintained PowerShell automation scripts for environment tasks, improving deployment consistency across client instances.
- Delivered customized web and BI solutions aligned to documented requirements and acceptance criteria.

MicroStrategy Expert & Application Developer

Jaitech Systems (Remote) | Mar 2015 – Jun 2018

- Integrated transactional data with Flex front-end components, enabling near-real-time operational views for end users.
- Automated Microsoft Exchange data population via PowerShell and integrated Google Geocoding API for location-enriched datasets.
- Built custom D3.js visualizations, improving interactive data presentation for web-based dashboards.

MicroStrategy Expert & Application Developer

Hitactics Inc. (Remote) | Apr 2012 – Mar 2015

- Customized enterprise web applications using JDK and Apache Tomcat, including authentication flows and project-level access controls.
- Improved application responsiveness through code optimization and structured release updates, contributing to higher user

satisfaction scores.

Team Lead, Web Development

El Palacio de Hierro — Mexico City | Jun 2003 – Feb 2008

- Spearheaded go-live of a new corporate e-commerce web platform, overseeing testing, product data migration, and cutover with minimal customer-facing disruption.
- Defined migration strategy for product catalog data, ensuring data integrity across legacy and new systems during platform transition.
- Mentored junior developers on web standards, QA practices, and release discipline.
- Increased team throughput by introducing documented development procedures and performance review cycles.

SELECTED PROJECT

iSportsApp — Tournament Management Platform (Founder & Lead Developer)

PHP | JavaScript | MySQL | Linux (Ubuntu) | Google APIs

- Grew active team registrations 70%–130% within the first year across deployed volleyball and soccer leagues.
- Built a responsive web application (desktop and mobile) covering tournament setup, scheduling, rosters, statistics, and document generation.
- Deployed and supported production instances at voleibolmetepec.com, ligapremierdeveteranos.com, and ligamayortoluca.com.

EDUCATION

Master of Science, E-Commerce | ITESM CCM — Mexico City | 2004 – 2007
Bachelor of Science, Computer Science | ITESM CCM — Mexico City | 2001 – 2004
